Supporting Student Success Through Grade Clarity

With your Fall classes in full swing, help your students stay informed and reduce end-of-semester surprises by clarifying grade estimates. We've seen several grievances in which students have made high-stakes decisions affecting financial aid based on a misleading Canvas grade estimate.

If you're using Canvas, you can [check gradebook accuracy quickly by using the 'Test Student' feature](#) to ensure total points for assignments and assignment groups are functioning as you intend. You can also learn more about how the 'total' column works by clicking [here](#).

The amazing Center for Teaching and Learning instructional designers are on stand-by to help you set up, check, or customize your gradebook (and answer any other Canvas questions) during any of [their open-lab drop-in sessions](#) throughout the semester.

If you don't plan to use Canvas to give automatic grade estimates, you can [turn off the total grade column](#).

Students can be supported through clear communication in the syllabus and at key times in the semester that you don't use Canvas for grade estimates. Providing an accurate mid-semester grade-check for all students through any means is very helpful for student success.

Aligning GenEd Assignments with UNM/NMHEAD Essential Skills & Rubrics

Hands-on workshop offered by the Office of Assessment and APR to design your own General Education (GenEd) assignments that align with UNM and New Mexico Higher Education Department (NMHED) essential skills and rubrics.

Through guided activities and collaborative discussions, you will develop experience in designing assignments that effectively assess student learning outcomes in UNM/NMHED essential skills such as critical thinking, communication, quantitative reasoning, information literacy and personal and social responsibility.

Take away strategies, samples and rubrics to enhance your course design and promote student mastery of essential skills at UNM. Save the date for another session of this workshop on Tuesday, October 7th at 10 a.m.

Sign ups for all workshops are at the link below:

A&S Center for Academic Success Workshops

Faculty and Advisor Collaboration for Student Success

This workshop focuses on strengthening partnerships between faculty and academic advisors to better support student success.

Topics include transfer equivalencies, course overrides, departmental honors, implications of grading practices for financial aid and degree progression (e.g. what a C-means, giving a W versus an F, etc.), and other key processes. Participants will explore effective communication strategies and share best practices for working together to help students thrive.

Date: Tuesday, October 14

Time: 1:15–3:00 PM

Location: Center for Academic Success Conference Room

A&S Undergraduate Degree Requirements

This session offers faculty and staff a concise overview of core curriculum, major/minor requirements, and key policies affecting degree progress. Learn best practices for guiding students and ensuring consistent understanding of undergraduate degree pathways.

Date: Thursday, November 20

Time: 10:00–11:45 AM

Location: Center for Academic Success Conference Room

Interested in Exploring How AI Might Support Your Teaching?

College of Libraries and Learning Services is hosting a 6-week virtual program for social science faculty (and interested graduate students) that focuses on thoughtful, collaborative engagement with AI tools. This cohort-based experience will meet over Zoom starting October 13.

All participants will receive a ChatGPT Plus subscription and work collaboratively in a supportive, cross-disciplinary environment. Please complete the short application form linked below. Participants will be selected with the goal of forming a diverse, engaged cohort.

Contact [David Gustavsen](#) and [Irina Meier](#) for more information.

Application deadline: September 29
